

# Specialty Installations

*Designed for your "off road" requirements with the functionality of a truck mounted system*

## THE COBRA SOLUTION

- Customize features to meet your specific requirements
- Maximize productivity of your inspection equipment
- Increase your pipeline inspection capabilities
- Exploit the earnings potential of your inspection investment

## GENERAL FEATURES

- Modular systems for easy removal from ATV to Truck Mounted System or storage when not in use
- All the functionality of a Mainline System with the durability and flexibility required by the demanding User
- Installed on all types of off road vehicles to include ATV, Humvee, Gator for the inspection of pipelines located in rugged, remote environments
- Up to 1,000 Ft. Cobra Video Cable can be supplied with the system which runs standard Cobra crawlers
- Reel is provided with a power level wind, electric re-wind motor and automatic clutch. Electronic brake is installed on the reel to prevent cable overruns
- Reel may be connected to the end of a mainline video cable and operated from a conventional Inspection Van
- Weatherproof control console incorporates a Sunlight-Readable CobraTouch™ Data Logger

Sunlight Readable Touch Screen

Kubota ATV Installation

***The first TV Inspection System on an ATV was built by Cobra. McCullough Rehab, Wilsonville, AL. tapped Cobra to design a TV Inspection System on a Polaris. Cobra has designed many systems since—meeting the unique requirements of each individual customer.***

Polaris Installation

All Specifications subject to change.

***So Advanced ... It's Simple***
